

ENVIRONMENTAL SHIELD FOR A TRUCK
MOUNTED CONCRETE MIXER

5 ABSTRACT OF THE DISCLOSURE

 An environmental shield for reducing or eliminating
leakage of materials from transit vehicles, including
truck-mounted concrete mixers, is provided. The
environmental shield preferably engages at least a
10 portion of an opening on a mixer drum such that the
leakage that generally occurs in such situations as
travel along hilly or bumpy terrain, surging, etc. may be
prevented or minimized. The environmental shield
preferably includes a discharge cover and a combination
15 steel/rubber abrasion resistant sealing member and may be
preferably coupled to a charging hopper of the transit
vehicle.
